

# EXPANDED ASSISTIVE TECHNOLOGY (AT) GRANT

## PURPOSE OF GRANT

Easterseals Iowa will be expanding our lending library, increasing access to assistive technology devices for individuals over 18 with disabilities, and for individuals over 60 to increase independence, remain in their home and have access to the community.

Iowans who qualify for this grant funding will have access to Assistive Technology to support independent daily living and access to their community. There will be an application process to determine eligibility, and the application process will operate on a first come, first serve basis. Assistive Technology Specialists will support in the approval of AT and purchase of devices which will then be delivered to the approved applicant. All items will remain the property of Easterseals Iowa, though the borrower will have access as long as a need exists. There is a funding limit of \$750 for any Assistive Technology per individual.

*This project is funded through COVID19 Coronavirus Relief Funds and monitored by the Iowa Department on Aging.*
