

Parents and primary caregivers of children with special health care needs are invited to participate in **Storytelling for Family Leaders.**

This training helps families of Children and Youth with Special Health Care Needs to develop their skills in order to share their story in a variety of settings and modes of delivery in order to bring awareness and change to the System of Care

In this training, participants will:

1. Understand the essential value of their family experience
2. Craft a story from their lived experience for awareness and change
3. Develop presentation skills for a variety of settings

Participants will work with a coach and small cohort of family storytellers. This 9-week course is a blend of a in-person session, online assignments and Zoom sessions.
