Spectrum Disorder?**

## Measuring Sleep Problems in Children with Autism Spectrum Disorder

### **RESEARCH STUDY**

**Cleveland Clinic, Emory, and the Ohio State University  
Wexner Medical Center**

# About the study

## Study Participation

We are currently looking for parents and children to participate in an assessment. We will use the information to develop a new measure for sleep problems in children with ASD. The assessment will last for around 3 hours. This research is funded by the National Institute of Child Health and Human Development (NIH). Each participant will receive a \$100 payment for completing the study assessment.

## Eligibility

You may qualify to participate if:

- Your child has a diagnosis of Autism Spectrum Disorder
- Your child is between the ages of 3-12
- Your child has not started a new medication in the past month

## Need additional information?

Please contact your local site coordinator via phone or email.
