

Positive Behavioral Supports-Train the Trainer

Positive Behavioral Supports is a 2-day, train-the-trainer program open to all providers of home-and-community-based services interested in helping individuals transition to homes in community settings through Iowa's Money Follows the Person Grant.

This program was developed to train members of the direct care workforce, supervisors, trainers, etc. In addition to information on current best practices in providing behavior supports, this program will offer participants interactive, practical opportunity to apply the training to their own case studies and organizations.

Purpose: This training is intended to be a "train-the-trainer" program. It is expected that supervisors, administrative staff and/or training staff of agencies will take from this training the competency to train their staff at their organization in the techniques and philosophies of Positive Behavioral Supports. Day 1 of this training will focus on the foundation and skills of how to provide positive behavioral supports. Day 2 will focus on how to sustain the Positive Behavioral Supports concept throughout your organization and how to become an effective trainer.

There is no charge to attend the training, and training materials will be provided by the Money Follows the Person grant.
